CASA0007 Quantitative Methods - Group Presentation Mark Scheme

	5-6 MARKS	3-4 MARKS	1-2 MARKS	0 MARKS
Visualisation	Excellent graphs/figures, carefully and clearly presented, providing insight on the data.	Competent graphs/figures, mostly well presented and fairly well chosen to illustrate the data.	Very basic graphs/figures, with errors in presentation.	No graphs/figures or very poor and careless graphs/figures.
Clarity of Explanation	Ideas are explained with a high degree of clarity.	Ideas are explained fairly clearly.	Some information is conveyed, but there are significant issues with how ideas are explained.	Explanation is very confused, unclear. Presentation is difficult to understand to the extent that almost no information is conveyed.
Insight		The presentation highlights points of genuine interest and insight about the data in a reasonably engaging way.	The presentation provides accurate information about the data, with at least some points of interest being revealed.	The presentation conveys very little of interest about the chosen data.
Technical Difficulty		More advanced techniques from the course have been applied correctly (e.g. more advanced regression, clustering,)	Basic techniques from the course have been applied correctly (e.g. simple linear regression, simple hypothesis tests)	Analysis does not go beyond the most basic summary statistics and graphs.
